## Custom Branding

Custom branded Dairy Aprons are an extremely effective method of promoting your company / product / brand. This optional branding using high performance printing inks is included as part of the apron manufacturing process to ensure a professional standard of finish that is consistent with the overall premium quality of the apron.

**Why custom branded Shedline Dairy Aprons are such a GREAT marketing tool:**

- Using a premium quality apron ensures long lasting brand exposure
- Branding on the apron is regularly and continuously exposed to all key decision- making personnel on the farm and around the dairy shed
- An apron is a necessary commodity for a dairy farmer - guaranteed to be used

### PROMOTE YOUR...

## Milking Sleeves

The Milking Sleeves are made with light weight breathable material that is waterproof and comfortable to wear. The modern design offers full length arm protection and includes a unique neoprene cuff for added comfort.

### FEATURES:

- Full length arm protection
- Lightweight and comfortable to wear
- Neoprene Comfort Cuff
- Connected with adjustable elastic shoulder strap to help prevent from slipping down the arms
